Underwood Hat Thrown In Ring For 1924 Fight

Alabama Senator Takes Stand
For Firmness In Law
Enforcement

REGRETS LOSS OF PRESTIGE

America Surrendered Leader-
ship In World Affairs In
Post-war Period

By Associated Press
Dallas, Tex.—The active pre-con-
vention candidacy of Oscar Under-
wood, United States senator from Ala-
bama, for the Democratic nomination
for president, became a fact here
Thursday.

Senator Underwood arrived here
early Thursday from Wichita Falls to
make the principal address of his
Texas tour at the state fair of Texas
Thursday morning.

Hundreds of prominent Texans
gathered here for the initial rally
Thursday of the Underwood-For-Pres-
ident club of this state.

At Wichita Falls, Wednesday night,
Senator Underwood took his stand
firm for law enforcement. Liquor
smuggling should be stopped by fed-
eral revenue cutters, if necessary by
firing into ships violating the laws of
the land regardless of what nation's
flag the ship carried, he said. The re-
cent conference of governors with
President Coolidge on law enforce-
ment was a "buck passing affair," he
said.

LOST LEADERSHIP

America has surrendered leader-
ship in world affairs, Oscar W. Un-
derwood, United States senator from
Alabama, declared Thursday.

"We surrendered the leadership in
world affairs which our great sacri-
fices had won for us," the senator de-
plored, speaking of his views on for-
eign relations in the course of an ad-
dress at the state fair of Texas.

He traced the general drift of sen-
timent in the civilized world before
the war, aside from Russia and the
German empire, toward liberal and
democratic forms of government, of
the high ideals actuating the allies in
engaging in the war, up to the pres-
ent governmental drift in Europe
"back to autocracy control and away
from our form of government."

Sounding the ideals for which
America fought, the senator de-
clared:

"We stood for a peace of love be-
tween nations and not a peace that
would cement the hatred of the peo-
ple of the world. We dreamed of a
new world. At the peace table we did
not win all that we had fought for.
Our government still stood for the high
ideals we championed during the war."

POLITICS SPOIL ACCORD

"Then a united country lost itself
in partisan politics.

"Our government abandoned the
high and unselfish position the Ameri-
can people took during the war. We
surrendered the leadership in world
affairs which our great sacrifices had
won for us. We refused longer to
sit in council and encourage the
peaceful settlement of the difficult
problems that made for war. We
deserted the field made for us and
saw the blood of our heroic dead."

"What has come of it?" Senator
Underwood asked his audience. "Half
a decade has rolled by since the ar-
mistice, and we already know the
story. We have lost the confidence of
the people of the world because when
the time came we failed to play our
part."

So detailing step by step America's
rejection of the treaty of Versailles,
withdrawal of membership on the re-
parations commission, abandonment of
contact with European affairs com-
pletely, "we did nothing," he sum-
marized.

SPEAKER STOPPED IN ATTACK ON KLAN

Richmond, Va.—A. G. Gilmer, an
Oklahoma City attorney, was halted
in the midst of his address before the
International Association of Fire En-
gineers Thursday and his talk
stricken from the program when he
launched into an attack on the Ku
Klux Klan after he had described
Governor John C. Walton of Okla-
homa as a "tyrant." Walcott applaud-
ed the ruling of President C. W.
Ringer that the address could not be

FRANCE IS SOLE BAR TO AID FROM U. S. IN EUROPE

Poincare Is Responsible For
Aloofness Of America,
Lawrence Says

WASHINGTON NOT INVITED All Nations Have Appealed For Intervention With French Holding Off

By DAVID LAWRENCE
Copyright 1923 by the Post Pub. Co.
Washington—Ambassador George
Harvey's farewell speech telling Great
Britain informally that the United
States is anxious to help Europe but
that the door has been closed by
Europe herself is exactly in line with
the feeling of the Washington admin-
istration and may be regarded as an
answer to all the pleas for American
aid which lately have been directed
toward this country.

Former Prime Minister Lloyd
George, Premier Smuts of South Af-
rica, and publicists galore have been
continually saying that the United
States could help Europe and must
help. But the revelation by Ambas-
sador Harvey that the door has been
closed and no invitation for American
help issued is the truth of a situation
no more enjoyed by the American
government than the Europeans who
want the United States to help.

The government which closed the
door is France and the individual re-
sponsible is Premier Poincare. Prac-
tically all of Europe may ask for
America to interfere in arranging the
reparations problem or the economic
situation generally, but the United
States will not need the request. For the
fact is that the desire for American aid
today almost unanimous in Europe
but the single dissent is sufficient to
keep America away. That dissent
comes from France, the most pow-
erful military country in Europe.

So while appeals may come from all
quarters of the globe, the United
States will wait for an invitation
from France. Except for the publi-
cation of speeches like that of Am-
bassador Harvey, which in itself is a
significant event, the United States
government will not renew its pro-
fers of help. The speech made by Sec-
retary of State Hughes at New Haven
last year still stands as American
policy and whether the plan proposed
therein now is out of date and needs
modification, or whether some other
plan which will be more effective is
proposed, nothing will be done by
America until an explicit request for
intervention comes from all the prin-
cipal powers.

The position of the Coolidge admin-
istration, as outlined by Ambassador
Harvey, who it will be remembered
spent several days in intimate con-
ference with the new president as
his personal guest at the White
House, is that America respects the
underlying principle of a Monroe doc-
trine applied to Europe, namely, that
which the United States would brook
no intervention from Europe unless
invited, so Europe can hardly expect
the United States to take the initia-
tive in anything in the old world un-
less invited.

FRIGHT KILLS MAN HELD UP IN OFFICE

By Associated Press
Kalamazoo, Mich.—Samuel Wyne-
gar, 52, an employee of a coal company
here died of fright, late Wednesday,
when an armed bandit proclaiming
himself as Tommy O'Connor, Chicago
gunman, walked into the company's
office and demanded money.

Wyngar complied with the bandit's
order to sit down. Almost immedi-
ately he suffered hemorrhages and top-
pled over. The bandit permitted an
office of the company to telephone for
a physician and then walked out with
about \$100.

COURTROOM FILLED AS 4 MEN EXPLAIN DRY SQUAD RAIDS

Spencer Lectures Villagers Who
See Compatriots Face
Court

A court room full of residents of
Little Chute and Kimberly Thursday
morning listened to a sermon deliv-
ered by Judge A. M. Specker. He
urged them to make their villages the
law abiding communities they were
before prohibition went into effect.

Four new moonshine cases had at-
tracted the visitors. Some of them
were relatives of the defendants who
were arraigned in municipal court,
and some of them, brothers in the
trade, had come to see how court ma-
chinery works, possibly also to see
if they themselves might be betrayed
in the testimony.

The four defendants, Albert Nollen,
Henry C. Winlus, John A. Jansen, all
of Little Chute, and Peter Hoenagel,
Kimberly, were arraigned as a result
of moonshine raids conducted on
their premises Wednesday by Walter
Scherer, deputy sheriff. He was ac-
companied by Wilbur Bogan, county
motorcycle officer.

SEIZE TWO STILL

Stills were seized on the premises
of the first two mentioned and moon-
shine whisky was found on the prop-
erty of the other two, according to
Mr. Scherer. Nollen, Winlus and
Jansen pleaded guilty and are to re-
ceive their sentences Friday. Hoenagel
waived his preliminary examina-
tion and was bound over to the high-
er branch of the municipal court for
trial on Nov. 1.

Albert Nollen admitted that a 15-
gallon still was in operation on his
property but said he had nothing to do
with it. His wife had purchased the
still out of a catalog, but she did not
remember which catalog, for there
were so many advertising stills. She
bought the outfit for \$30. It was on
the installment plan, but she could
not even remember to whom she had
been sending the money. Forty gal-
lons of mash and one gallon of dis-
tilled liquor were found on the place.

HOME MADE STILL

A 15-gallon still, 150 gallons of
mash and five gallons of illicit intox-
icating liquor were discovered on the
property of H. C. Winslow. He had
not purchased his still out of a cata-
log. It was a strictly home made one.
He admitted making moonshine, but
it was primarily to satisfy his own
thirst, although he did sell a little
now and then.

John A. Jansen, on whose premises
10 gallons of bad whisky were found,
said he was not in the manufacturing
business. But he had purchased a keg
full from a Michigan man, he said.

PLURALITY OF G. O. P. WILL BE SMALL IN 1924

One Vacancy In Senate And
Ten In House Remain
To Be Filled

By Associated Press
Washington—One vacancy in the
senate and ten in the house remain
to be filled before the convening of
congress. In most cases the contests
will be decided on Nov. 5, the general
state election day.

The senate seat vacant is that for-
merly occupied by the late William
Dillingham, Republican, Vermont.
Former Representative Porter H. Dale,
Republican, and Frank H. Pollard, a
first cousin of President Coolidge, but
a Democrat, are the contestants for
this place.

In the house there are four vacan-
cies in the New York delegation, and
one each in Arkansas, Illinois,
Kentucky, Mississippi, North Caro-
lina and Vermont delegations. Should
the Democrats hold their ground in
the coming contests, they would have
a total of 248 members in the house,
and the Republicans 224, with one
Farmer-Labor, one Independent and
one Socialist. Thus the Republican
plurality would be only sixteen as
compared with 170 in the last con-
gress while its majority over all par-
ties would be only thirteen.

FORBES TO ANSWER CHARGES OF GRAFT

Former Director Of Veterans'
Bureau Will Be Given
Chance Monday

Washington, D. C.—Having heard
a rather startling story from Elias H.
Mortimer of Philadelphia as to his re-
lations with Charles R. Forbes, former
director of the Veterans' bureau, while
he was seeking a contract from the
bureau last year for the construc-
tion of a hospital, the senate commit-
tee investigating the bureau was in
recess Thursday until next Monday.
Before adjourning late Wednesday up-
on the completion of Mortimer's testi-
mony, the committee decided to give
opportunity next Tuesday or Wednes-
day to Mr. Forbes to reply to Mort-
imer's story, which contained charges
of intrigue, debauchery and corrup-
tion in connection with the awarding
of a contract for the building of a
veterans' hospital at Northampton,
Mass., to the Pontiac Construction Co.
of Detroit, one of the companies re-
presented by Mortimer.

HEAVY SNOWFALL HURTS BEET CROP IN COLORADO

Denver, Colo.—Damage to unpro-
tected crops, especially the beet
crop in northeastern Colorado, result-
ed from snow which, beginning to fall
Wednesday at daybreak, continued
until late Wednesday night, cover-
ing the eastern slope and foothill re-
gion of the Rocky Mountains with six
inches of snow. Telegraph and tele-
phone lines in many localities were
damaged and considerable interrup-
tion of communication resulted and
in parts of Colorado have blocked au-
tomobile traffic.

Mayo Explains How 'Mediums' Gain Credence

Chicago—Man's proud brain power
has not lifted him as high above the
lower animals as he likes to think, ac-
cording to Dr. William Mayo of
Rochester, Minn., who addressed the
American College of Surgeons. Even
when he is awake, man is only a
quarter conscious of what his body is
doing, he said. Three quarters of the
energy created by the food man eats
and the air he breathes is spent with-
out his knowing it. Dr. Mayo de-
clared.

When emotional influences, spoken
of as psychic, get so strong that they
flood over and try to control the
smoothly running unconscious sys-
tem, trouble occurs.

"Disturbances which more or less
resemble real diseases are caused,"
he said. "The trained observer allows
them to be false but the unlight-
ened patient accepts them as true.
Herein lies the success of the cults
and quackeries who play these dis-
eases for the real thing and reap a
harvest."

FORMER BRITISH WAR PREMIER TO MEET U. S. CHIEFS

David Lloyd George Comes At
Opportune Time To Dis-
cuss Europe

Washington—David Lloyd George
came to Washington Thursday to
cast his sharp Welsh eye over the in-
ner machinery of the American gov-
ernment and to talk over many sub-
jects of world concern with American
officials.

A piece with the dramatic thread
which has run through his career,
his arrival came at a time when the
turbulent affairs of Europe appear-
ed again to be verging toward a crisis,
and when talk of American aid in Eu-
ropean reconstruction has had at least
a momentary revival.

The parting address of Ambassador
Harvey in London, the new German
request for a survey of her ability to
pay reparations and renewed pro-
posals for a world economic confer-
ence, all put their touches of color in
the background of the conferences
arranged between the British states-
men and the directing minds of the
American nation.

Secretary Hughes and then Presi-
dent Coolidge were on the former
premier's calling list for the first few
hours of his three day visit.

Late in the day he was to pay a
call on Woodrow Wilson, who like
him had filled one of the leading
roles in the drama of war and peace,
and on the only other living ex-presi-
dent, Chief Justice Taft. Friday and
Saturday he will talk to many others
high in official life.

WALTON AIDE EJECTED FOR RAPPING KLAN

Representative Callahan Says
Jewett Rules With
High Hand

SEIZE SPEAKER BY THROAT Eighth Change In Impeachment Of Chief Approved By Vote Of 77 To 14

By Associated Press
Oklahoma City—A dozen or more
house members forcibly attacked Rep-
resentative Callahan, smashed a
chair and threw Callahan out of the
room when he declared in a bitter ar-
rangement of the Ku Klux Klan that
N. C. Jewett, grand dragon of the
Oklahoma realm of the Klan was dic-
tating the kind of legislation to be
enacted in Oklahoma.

Callahan's words hardly fell in the
house chamber before one member
shouted "that's a black lie." One
member sprang at Callahan's throat
and both fell in a scuffle. Twelve or
fifteen other members rushed toward
Callahan, most of them endeavoring
to place their hands on him. Ser-
geants at arms and virtually all other
members of the house rushed to the
corner where the scuffle was taking
place. Clenched fists were waving
in the air as Callahan was forcibly ef-
fected into a cloak room. Callahan stood
guarded by two members after the
seargent at arms had ordered other
members back into the chamber.

EIGHTH CHARGE APPROVED

The eighth charge in the bill of im-
peachment against Governor C. W.
Walton was voted Thursday by the
Oklahoma house when it approved 77
to 14, article 12 of its committee re-
port accusing the executive of declar-
ing martial law in Tulsa "when no
cause, reason or ground existed there-
for."

Jess Harper, Democrat, was in the
speaker's chair when the session was
called to order. Speaker J. D. McBe-
e being ill.

A long debate on the introduction
of a bill by T. B. Taylor, Democrat,

progress of the session.

INTEREST GROWS IN MASSMEETING FOR NEW INDUSTRY

Triumph Stove & Heater Co.
Proposition Will Be Con-
sidered Friday

Interest is growing among the peo-
ple of Appleton in the massmeeting
at 7:30 Friday evening in the council
chambers of the city hall to consider
a new industry for Appleton, that of
the Triumph Stove & Heater Co. of
Milwaukee, which is planning to move
to Appleton. There are indications
that there will be a large attendance
at the meeting called by the citizens'
committee of which J. L. Johns is
chairman.

Merchants, professional men, work-
ers and others are quite optimistic
over the opportunity to add a stove
and furnace factory here and many
of them have said they would be at
the meeting to help consummate the
project. The chamber of commerce
also has asked its "new industry"
group to be present.

Open encouragement is being given
those who are trying to induce this
company to move to Appleton, be-
cause of the fact that every product and
management have withstood a large
amount of investigation, and the
proposition appears to the committee
as reasonably satisfactory.

The committee invites everybody
interested in the growth of Appleton
to be present Friday night and take
part in the discussion of the industry
and ask questions. It is the hope of
J. L. Johns to have people reach a final
decision at this gathering.

SMITHSONIAN SAVANT FINDS WORLD'S OLDEST BONES IN CALIFORNIA

By Associated Press
Santa Barbara, Calif.—Indians
resembling the Cro Magnon man
inhabited the shores of the Pa-
cific at an age earlier by many
centuries than ever yet estab-
lished by archaeologists, accord-
ing to claims made here Wednes-
day after the discovery of im-
portant specimens in excavating
Burton Mound, early home of the
Santa Barbara Indians. The ex-
plorations are being made by J.
P. Harrington of the Smithson-
ian institution.

Lying on the surface of the
hardpan beneath forty-four
inches of an Aeolian deposit of
loam, which shows no signs of
having been dug into by the In-
dians during the period of the
century old graves heretofore ex-
cavated, was found a skull, with
brow abnormally retreating and
very thick. The brow ridges are
prominent, the face is very long
and the jaw massive. The profile
is almost gorilla-like. The skele-
ton accompanying the skull, was
fragile, the bones almost dropping
to pieces.

Beside this skeleton was found
another of the same type, also
resting on the hardpan at the
same level. The skull of this
second skeleton had crumbled,
but was very thick.

THOUSANDS SEE KLAN CEREMONY AT TEXAS FAIR

Dallas Branch Dedicates
World's Sole Home For
Unbidden Babies

Dallas, Tex.—The Ku Klux Klan,
some 30,000 of whose members gar-
bered here Wednesday faded from Pub-
lic view Thursday.

Festivities and ceremonies at the
state fair of Texas were concluded
and special trains took visitors home,
mostly to places in the southwest.
The Klan officials came from all over
the country.

Klan day, beginning with the ded-
ication of Hope Cottage, declared to be
"the only institution of its kind erect-
ed solely for the purpose of caring
for the helpless babies that have
come into the world unbidden," ac-
cording to J. D. VanWinkle, exalted
cyclops of the Dallas Klan, reached a
pitch of enthusiasm in an address
by Imperial Wizard H. W. Evans, and
found its climax in the initiation at
night of candidates.

In a field amid millions of glittering
sparks from the pyrotechnic display,
a fiery cross burned. A ward bugle
called answered a salute of 12 guns.
The white forms of about 7,000
robed Klansmen appeared across the
field, becoming more distinct. Im-
mense American flags were borne by
mounted color guards, and then the
fiery cross.

About 25,000 persons sat in the
grandstand in the bleachers and crowd-
ed to the enclosures. Others perched
themselves on roof-tops and im-
proved fences. As many as 50,000
persons including the 30,000 Klansmen
are believed to have poured through
the gates during the day and night,
according to fair officials and as many
of these as could conveniently
crowded to the night ceremonies.

Separatists Claim Control Of Dueren District Under Ex-army Men

SEEK ASSURANCE OF PEACE

Former Headquarters Of A. E.
In G. Occupied By Re-
publican Forces

Paris—A Rhineland Republic Thurs-
day morning seems as far away as
ever, for the Separatists, although
they are making fresh conquests, do
not appear to have sufficient forces
to hold them.

The Loyalists, in the presence of
the complete apathy of the general
public, seem to have no difficulty in
regaining control, so that when a bal-
ance is struck the Separatists are in
much the same situation Thursday
as they were Wednesday.

The movement now apparently is
confronted by the opposition of an in-
dependent republic engineered by Bur-
gomaster Adamauer of Cologne and
fostered by the Reich, which seeks to
divert the Separatists coup in its fa-
vor. This, according to a Berlin dis-
patch, is the real object of Chancellor
Stresemann's visit to Hagen. The Ber-
lin correspondent of LeJournal even
says that this second republic will be
proclaimed within 24 hours.

"They (Decker and Gutshard) re-
ceived information from C. K. Hagen
that a Rhineland state, according to
the ideas of Berlin, would be proclaimed
without delay by the Centrist party."

"We also learned that the Bavarian
Nationalists as well as the Commun-
ists of Saxony and Thuringia had all
planned to launch movements. Decker
and Gutshard thought the best
thing to do was to lose no time in
starting our movement and thus
steal a march on Berlin."

TAKE CONTROL IN DUEREN

Dueren—Separatists in Dueren say
they have complete control of this
area. More than 600 of their men
they assert are stationed in the Rath-
aus and other public buildings here
which are being administered by ex-
army men.

Only officers are permitted to have
arms, the explanation being that they
are responsible for the public safety.
The police have been disarmed and
Separatists with green, white and red
arm bands went about Dueren Thurs-
day unmolested.

Burgomaster Averhues refused to
surrender when the Republicans ar-
rived and was taken from his house.
He now is a prisoner of the Separat-
ists.

Hugo Reuter, in charge of opera-
tions here made this statement:

"We want an independent Rhin-
land absolutely free of the fetters of
Berlin. The Rhineland is too impor-
tant industrially and otherwise to fol-
low Berlin's course."

"We are willing to share our por-
tion of the burden of reparations and
propose to place the question in the
hands of the league of nations to de-
termine what amount of reparation
we should pay. We stand for a free
Rhineland as a buffer state in the in-
terests of European peace."

ANDERNACH OCCUPIED

Coblenz—The Rhineland republic
was proclaimed Thursday morning at
the former quarters of the American
forces in Germany in Andernach ten
miles north of Coblenz. It was
proclaimed also at Achenbach, near
Coblenz, as well as at Soder, Briel, and
Gaistenheim, small towns situated in
the districts of Wiesbaden, Bonn and
Rudersheim.

POLICE ATTACK SEPARATISTS

Aix La Chapelle—Police Thursday
morning attacked the Regierung pa-
lace, the only remaining public build-
ing in the hands of the Separatists.
Five policemen and two Separatists
were killed. Later thirty-five mem-
bers of the police force called at the
Belgian military headquarters and re-
quested that they be disarmed.

U. S. AGENT WOULD DRY UP WISCONSIN

Milwaukee—A concerted effort to
claim the dry lid down today on
Wisconsin in the hope of making this
state a model of prohibition enforce-
ment is the latest plan of Clark M.

here.

Conferences between state, county,
municipal and federal officials will be
called soon at several cities for co-
ordinating the work until every part
of the state is covered with an army
of enforcement officials out to make

JUDGES CHOSEN. CHANGES MADE. IN ESSAY CONTESTS

Prizes For Product Lists And
Essays Will Be Given Out
At Exposition

Judges have been selected for the two local contests among school children and several changes have been made in the rules concerning manuscripts and essays.

One contest among sixth, seventh and eighth grade pupils of all schools in the county gives a prize of \$10 for the best list of products manufactured in Outagamie co. The former plan of the manufacturers and jobbers exposition, which gives the prize, was to include the central Fox river valley, but the territory included in the list now is the county only.

Judges for this contest will be Dr. D. O. Kinsman of Lawrence college, and George H. Packard and Seymour Gnetner, manufacturers. The prize will be given on the closing day of the exposition, which takes place the latter part of November.

JUDGES CHOSEN

W. E. Smith, insurance man and former educator, E. A. Paulson of Kimberly-Clark Co. and Dr. W. S. Naylor of Lawrence college, are to act as judges of essays by high school pupils on "How Paper is Manufactured." The chamber of commerce offers a prize of \$10 in this contest, and the award also will be made on the closing day of the above-mentioned exposition.

A change has been made also in eligibility of pupils. The chamber first decided to limit entries to pupils of Appleton high school but now has made it apply to any high school pupil in Outagamie co. Essays are to be limited to 250 words but preferably should be about 150.

NEED NOT ENTER

Pupils preparing lists of products are to arrange them alphabetically so as to make the work of judging easier. It is not necessary to give all the classifications of manufacture, but to name only the principal article itself, according to the rules. For instance, bond paper may be listed but the contestant is not required to name the various kinds of bond paper that are made in the mills here.

Work may be started on the lists or essays at once. They are to be completed and handed in to the chamber of commerce by Nov. 20, with no name on the paper, but with name, address, school, etc. on a slip of paper enclosed within an envelope attached to the manuscript.

FINISH KIMBERLY CLUBHOUSE BY NOV. 1

The new \$40,000 clubhouse at Kimberly will be completed by Nov. 1, and plans are under way for the formal opening which will be held between Nov. 5 and Nov. 10.

The celebration will extend over three days. One day will be known as children's day, one as Kimberly-Clark day, and one as village day. The program committee is arranging three distinct programs.

The Kimberly band will take a prominent part in the celebration and it is understood arrangements are under way for broadcasting its concerts.

Appleton postoffice is following close on the heels of the Oshkosh postoffice in the amount of United States treasury saving certificates sold this year. Appleton leads all cities of its class in the state and is behind only Oshkosh and Milwaukee.

In the period between Jan. 1 and Sept. 30, the local office sold \$66,113 in treasury certificates, while the record of the Oshkosh office is \$73,773. Amounts sold by other postoffices are as follows: Madison \$27,000; Racine \$20,000; Green Bay \$17,000; Sheboygan \$15,000; Kenosha \$12,500.

A report will be made in Appleton during the remaining months of the year in order to boost the total to the \$100,000 mark and, if possible, pass even Oshkosh in the race.

PAY 4 PER CENT

Treasury savings certificates were issued in place of the old war savings stamps and mature five years after date of purchase. They are issued in denominations of \$25, \$100 and \$1,000 which are purchasable at \$25.00, \$100.00 and \$1,000.00 respectively. They yield 4 per cent interest, compounded semi-annually. If held to maturity or about 3 per cent on the purchase price if cashed before maturity. They are registered and secured against loss or theft, are exempt from normal federal income tax, and from a state, county and local taxes except estate and inheritance taxes, and are not subject to market fluctuations.

Rheumatic Pains Go Swollen Joints Vanish

Rheuma—The Only Safe and Quick-Acting Remedy for Rheumatism, Gout and Sciatica. Money Back If It Doesn't Satisfy.

Thousands of sufferers have freed themselves from the bondage of rheumatism rid themselves of the torturing pain, reduced the swollen joints, thrown away canes and crutches, and from helpless beings became able to work and be of use to themselves and their families.

They took Rheuma; the modern enemy of rheumatism, lumbago, sciatica, arthritis, gout and chronic neuralgia. Don't be skeptical about Rheuma. You will know in a few hours after beginning the treatment that the poisonous uric acid is leaving your system through the natural channels. You will feel better in a day; you will know you are going to be helped in less than a week.

Don't think because Rheuma is not expensive that it won't bring you back to health. There is no guess work about it. That's why Schinzig Bros. and good druggists everywhere sell it with guarantee of money back if it does not give quick and blessed relief almost at once.

PICK NEW LONDON FOR NEXT SESSION OF VALLEY SYNOD

Reports At Conference Here
Show \$200,000 Raised For
New Seminary

New London will be the next city to entertain the Fox river valley conference of the Wisconsin Lutheran synod, according to a vote of the pastors and lay delegates at the fall meeting at Mount Olive Evangelical Lutheran church. The next gathering will be held the third week in January and will be at Immanuel Lutheran church, of which the Rev. Adolph Spiering is pastor.

The conference began its sessions here Tuesday morning and concluded them Wednesday afternoon. Reports of the financial activities of the Wisconsin synod were made at Tuesday afternoon's meeting. The campaign for a new Lutheran seminary at Wauwatosa to cost \$700,000 is being conducted successfully. It was shown. More than \$200,000 has been received in cash to date.

The Rev. R. Lederer of Green Bay preached the confessional address Monday evening, at which communion was administered to the pastors and lay delegates. More than 50 were present.

Papers were read at the meeting Wednesday morning. The first on "The Reformation" was presented by the Rev. Leonard Kasper of Greenville. A second one on a Biblical topic was begun by the Rev. F. Lettmann of Wrightstown at the morning session and concluded after the opening hour in the afternoon. Adjournment was to be taken at about 4 o'clock.

FIVE GREENS READY ON NEW GOLF LINKS

Buildings Will Be Remodeled To
House Players—May Invite
State Tourney

W. C. Jackson of Chicago, architect who has preparation of the golf links in charge for Appleton Golf club, is expected here Thursday to go over the work which has been done; thus far. The progress has been so rapid that five greens now have been constructed.

Ed. H. Harwood, president of the club, is urging members to make a trip to the course on Brickyard road within the next few days to observe the work that is being done.

A tractor is being used in the grading and plowing and this helps to speed the work.

One of the buildings on the former Fleming farm will be moved to the Hammes tract and will be diverted into a lounge and dressing room for the men. The Fleming residence will be converted into a clubhouse designed especially for use of the women. It will be only temporary quarters, however, because a clubhouse is to be built later.

Neenah and Menasha men who were invited to join the club have visited the grounds and declare the course will be among the best in this part of the state. They are joining in numbers. About 15 applications yet may be accepted from the Appleton golfers.

One of the first activities of the club after it starts its season next year will be a campaign to bring the 1925 state championship golf tournament to Appleton and have the games played on the new course.

Easy Melody—Fox Trot The Benson Orchestra of Chicago
In a Covered Wagon With You—Fox Trot The Benson Orchestra of Chicago

Two of the greatest fox trot records ever made. "Easy Melody" is indeed easy going—smooth yet lively. "In a Covered Wagon With You" is in more riotous vein.

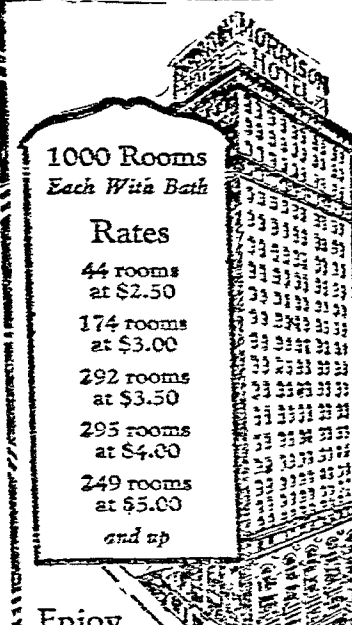

Tell All the Folks in Kentucky—Fox Trot Charles Dornberger and His Orchestra
Midnight Rose—Fox Trot The Benson Orchestra of Chicago

"Tell All the Folks in Kentucky" is a well-played standard big hit fox trot with a lyric sung by Vernon Dalhart. "Midnight Rose" is full of color and makes a most romantically beautiful record.

MR. ZIMMERMAN ON PROGRESSIVISM
Secretary of State Fred R. Zimmerman in a speech at Milwaukee before the Women Voters League spoke in praise of the progressive movement in Wisconsin, and rightfully so. When he said that it was no longer an experiment but that it had become an accepted political philosophy, he also spoke facts. His recital of the achievements of the progressive movement was accurate and to the point. We have had under this political policy abolition of railroad passes, rebates and railroad license fees; revision of tax laws; income taxation; pure food laws; effective state banking laws, and employer's liability and industrial insurance acts. This is progress.
What we have today, however, is not the progressive movement of the last twenty years, or of which Mr. Zimmerman speaks. It is super-progressivism. It expressed itself in the last legislature in such forms as resolutions of praise for Debs, in a bill exonerating the professors of the University of Wisconsin for exercising their undoubted right of free speech in connection with the World war, in an act to abolish the National Guard and in numerous other fanatical and radical measures aimed primarily at American institutions and the solidity of American government and in such further forms as attempts to abolish farmers' institutes, to increase the heavy burdens of taxation, to cripple the university and to make it a plaything of politics. All of this and much more took place in an atmosphere of political hatred and scandal. If Mr. Zimmerman means to present this as a part of the progressive record in Wisconsin we do not believe the people will follow him. There is a vast distinction between it and the progressive movement as it was formerly known.
Furthermore, super-progressivism has made our government wasteful and extravagant. It has doubled our expenditures in a few years, where they ought to have increased only a relatively small percentage. It is costing the taxpayers twenty million dollars a year for political machinery of administration where about ten years ago it was costing them only five million. What Wisconsin needs is to get back to sane progressivism, and to the selection of men for public office and for the legislature who have capacity to meet the governmental, economic and social problems of Wisconsin in an enlightened, businesslike and constructive manner.
The kind of government we now have is interested only in making the people dissatisfied with their surroundings and themselves. It leads only to class feeling and to extremes in legislation. It is meat for the politicians and scraps for the people. It is time we commenced to see that what is today posing as progressivism is not the progressivism that Mr. LaFollette introduced in Wisconsin and helped to carry through to realization, but is a sham behind which incompetent and sinister politicians are operating.

PROTESTANT ENCYCLOPEDIA
The Institute for the Advancement of Christian Knowledge has been incorporated by twelve leading Protestant denominations to study religious problems and engage in religious surveys. The first work of importance which the institute will undertake is publication of a Protestant encyclopedia.

The work will consist of twelve volumes, each to contain about one million words, in all something like twelve million words of informative material. It is announced that the editorial policy will be strictly impartial, as it should be.
We have a Catholic encyclopedia and a Jewish encyclopedia, both being comprehensive and impartial, and both presenting fact and truth fairly and without color. There should be a similar Protestant work.
Very few Catholics or Jews can get the Protestant point of view, and very few Protestants can get the Catholic or Jewish point of view. These religious encyclopedias therefore are exceptionally useful, as they are authoritative.

GOV. WALTON'S DOWNFALL
The legislature of Oklahoma is about to remove Governor Walton from office and in all probability he will be impeached. The action is what every one anticipated and it is probable that all things considered, it is suited to the good of Oklahoma. Mr. Walton does not appear so far as his record can be judged, as a well-balanced man for so important an office.

The reason he comes out of this spectacular incident in our political life beaten is because he overstepped his authority—if not his authority, clearly the limits of judgment and prudence. When in the beginning he undertook his fight against the Klan the governor had a large following, probably a considerable majority of his constituents. He was in the right in his purpose to stamp out Ku Klux violence and intimidation, and to make the Klan as an organization fully subservient to the laws and government of the state, counties and cities. The people supported him when he proclaimed martial law in Tulsa, and they were with him in his suspension of habeas corpus locally. But when he extended martial law to the state at large they regarded it as an unwarranted exercise of executive power and broke with him. While the governor made out a plausible case for himself at the time, later developments indicated that he was wrong in taking measures so extreme. Resentment was added when he prevented by the use of military force an extraordinary session of the legislature. He seemed to have lost his head.
These theatrical mistakes soon had the effect of moving the Klan fight to the background and of presenting the issue of civil liberty and civil supremacy in Oklahoma. It was certain that in the end these would triumph, and it is to Mr. Walton's discomfiture and political undoing that he remained obdurate. Whether the legislature makes a bonafide investigation of the Ku Klux Klan or not, the Klan issue will continue after the smoke has cleared away from the battle scene now being staged. The incident has focused more strongly than ever public attention on the methods and policies of the Klan and there is no question but what opinion throughout the country is overwhelmingly against this organization, not alone in its attempt to usurp powers and prerogatives that belong only to the government but in its campaign to arouse racial and religious hatreds and to array one class of people against other classes.

POLITICS IN MEXICO
The Obregon-de la Huerta-Calles combination which dominated Mexico from the Carranza regime to the present time is dismembered. Calles and de la Huerta are opposing Obregon for the presidency at the forthcoming election, and it is expected that de la Huerta will not be a candidate, but will throw his support to Calles. Until recently Calles was foreign minister and de la Huerta secretary of the treasury in the Obregon administration.
Paul, the present secretary of the treasury, charges that de la Huerta diverted millions of pesos from the foreign debt fund to political patronage. Obregon backs him up with an attack on de la Huerta. The latter replies that the allegations are meant to injure him politically, and adds that the Obregon party has threatened him with assassination. He says he will expose rottenness in the government.
The American public is likely to mistrust both the accusers and the accused. Mexico has made some progress, but has far to go. When the people themselves are better off and industry is safe, Mexico will have normal government.

SENSITIZATION AND IMMUNITY
A man who keeps bees and who the honey asks three or four times a season whether there is any way one may become immune to honey bee stings. He says he seems to be badly poisoned by a sting. He has heard that some persons do not mind being stung at all. That is true.
Some persons are naturally more or less immune to the poison injected by the busy bee; some persons can acquire practically complete immunity, and some persons had better keep bees. In order to get about developing a serviceable immunity to bee poison one arranges for a series of treatments consisting of stings at regular intervals of a week or two by from 30 to 40 vigorous healthy young yearling bees who have nothing more important to do. In some cases only a dozen or 15 stings or stings or dances are required to bring about sufficient immunity, but an average of 50 should be taken as a rule. Numerous bee keepers have tried this treatment and have declared themselves delighted with the results. I mean after a due time, not in the earlier stage of the treatment. Unlike most of the treatments I recommend, this one cannot be warranted pleasant to take, in which respect it resembles castor oil; on the other hand I do not recommend castor oil except as hair oil. Before taking the first few injections it would be well to apply a thick padding of cotton batting to the second commandment.
I have dwelt thus at length on the immunization treatment against bee stings not merely for the joy of it, but to emphasize a certain homeopathic principle which applies in many kinds of successful immunization.
Practical immunization treatment, as used by all good doctors today, is founded upon the homeopathic principle of a hair of the dog that bites you. This applies to the immunization against typhoid fever conferred by two or three successive hypodermic injections of minute quantities of the killed bacteria of typhoid germs; it applies to the now generally used toxin-antitoxin injections for the immunization of children against diphtheria; it applies to the modern treatment of hay fever by gradually increasing hypodermic doses of minute quantities of the pollen or pollens responsible in the individual case; it applies to the immunization of persons against ivy poisoning by a series of infinitesimal doses of ivy extract; and to the successful and safe poisoning of the itching and inflammation of ivy poisoning by daily hypodermic or intranasal injections of homeopathic doses of ivy leaf.
The homeopath deserve the credit for saving to modern medicine all these principles if not the entire credit for establishing the technical methods employed in various circumstances.
This time of year generally brings ivy poisoning to many unwary victims. Too late for immunity to protect them, but probably not as yet discovered brings such prompt relief as an intranasal injection of a few drops of homeopathic tincture (third dilution) each 24 hours; usually two doses suffice.

QUESTIONS AND ANSWERS
Only Skin
Please give a formula for oily skin. My face is very oily and face creams seem to do no good.—S. M.
Answer—Plain talcum, or rice powder if you are very careful to keep it away from the eyes, helps to take up the excess of oil. Each night mop the oily portions with bits of absorbent cotton or soft clean cloth moistened with some of this solution:
Resorcin 10 grains
Which hazel extract or cologne water 2 ounces
A and B At It Again
A claims that birthmarks on the face resembling such objects as strawberries, flames or mice, are caused by shock when the mother sees something of the kind. B argues that there is no foundation in fact for such beliefs. Kindly tell us which is right.—K. L.
Answer—The marks resemble strawberries, flames or mice about as closely as they resemble elephants, addo birds or wire haired knock kneed grasshoppers. For people with such lively imaginations it is no trouble at all to account for "marks." The idea is humorous to one with any knowledge of embryology or prenatal development.

TWENTIETH CENTURY STUFF
Mazda, Darling. (so we would imagine hearing Louis Luebbe, city electrician, propose) "Be mine, incandescent One! Watts life without you? Oum is not ohm without the light of your presence. My heart is a transformer that steps up at every thought of you. I would lay my heart along-side your switch; the touch of your hand is like a live wire. Marry me, and let us have a little meter in our home."

ROLLO—I see by the paper Gov. E. B. Smith has appointed a committee to work out a plan to advertise Wisconsin. Has the governor gone back on Bob LaFollette?

SUCH A KIND MAN!
(Dodge County Republican)
"Fairmont boasts a man who, although married 35 years, kisses his wife every time he leaves home. Man-kota has a man who can beat that all hollow. Though married 40 years he not only kisses his wife every time he leaves home, but kisses the hired girl every time his wife leaves home."

The state university tax on this county has been cut \$20,000. The tax is figured out that he will save about 25 cents on a thousand this year by that reduction, and he feels quite elated. He also figured that he will have to pay about 4 cents a thousand for the insane hospital at Oshkosh. "It's worth it," he says. "They ought to make it 10 cents."

This Shylock Was Not Jewish
Every so often somebody that landed in jail comes in and wants to rob us of our peace of mind. That's what so bad, but the other morning a lady called up the Post-Crescent and wanted 35 cents worth of pork chops. No, madam, you can't rob us of our flesh and blood.

M. K. says the funniest heading she ever saw in a paper (this wasn't in the Post-Crescent) was this one: "Man Beats Teacher and Flees."

CHANGE OF LIFE LOSES TERRORS

For Women who Rely upon
Lydia E. Pinkham's Vegetable Compound

Greenville, Pa.—"I took your medicine through the Change of Life and it did wonders for me. I was down in bed when I started to take it and weighed 95 pounds. I had hot flashes and was so nervous and weak that everything would get black and I could not see. I would sit and cry and did not know what I was crying for. Since I have been taking Lydia E. Pinkham's Vegetable Compound I feel younger than I did ten years ago, and my friends all tell me I look younger, and I owe it all to the Vegetable Compound. I do all my housework for a family of seven now. I will be glad to answer any woman who writes me in regard to my case."—Mrs. JOHN MYERS, 55 Union St., Greenville, Pa.

Many letters similar to this have been published testifying to the merit of Lydia E. Pinkham's Vegetable Compound. They are sincere expressions from women who describe as best they can their feelings before and after taking this well-known medicine.

Superintendents, Cost Accountants And Technical Men
In Conference

Three associations identified with the paper industry will hold conventions here on Friday and Saturday. The organizations are the Northwest Division of the Superintendents' association, the Northwest division of the Cost Accountants association and the National Technical association. All three organizations are divisions of the American Pulp and Paper association. The National Technical association will hold a national convention here. Technical men begin their registration here Thursday night but the other two organizations register Friday morning. Most of Friday morning will be devoted to registration and to visits to papermills and in the afternoon there will be a joint meeting of all three organizations at which there will be an address of welcome by Mayor Henry Reuter and responses by heads of the three associations. A banquet is to be held Saturday evening. On Saturday morning the visitors will inspect the Kimberly-Clark paper mill at Kimberly and at noon they will be guests of the Kimberly-Clark Co. at luncheon at the new community building at Kimberly. Group meetings are scheduled for the afternoon. Each organization will hold separate meetings after the joint meeting Friday afternoon. The cost accountants and the superintendents are to elect officers at the meeting here.

"HUMAN WRECKAGE"

IN

Now showing at FISCHER'S APPLETON

IN smashing sequences of stupendous drama this gigantic motion picture plunges home a mighty story of human life. In a voice of silence it thunders forth a passionate outcry that makes the emotions tremble. In towering transcripts of tremendous thrills it burns its way into the consciousness, leaving a trail of piercing memories that will linger as long as you live.

"CARTER" WEEK---SATURDAY OCT. 27th TO SATURDAY NOV. 3rd

**More Than a Million Women
Have Chosen This Underwear**

*Modern as your latest frock---
yet keeps you warm, snug,
and comfortable*

If a million well-dressed women agreed that they had at last found some sensible, comfortable and fashionable winter underwear, wouldn't you be inclined to think it might be worth looking into? In fact, wouldn't you actually want to see it, and know why a million women had chosen it?

It is Carter's Underwear—as modern as your latest frock, yet warm, snug, and very comfortable. Every feature of the latest styles is provided for. Our expert designer studies the advance fashions in outer garments, and for each one she has created just the right foundation in undergarments.

Every Carter garment is expertly cut. Each new style is tried on a living model. Whatever position the model naturally takes, the garment is adjusted to fit with ease and smoothness, exactly as a dress is tried on and fitted. The result is a garment that is known for its superior fit.

Carter's KNIT Underwear
For All The Family

In the panel above at the right, Style 1814, round neck and knee-length union suit, so skillfully knit that it makes a perfect foundation for the thinnest frock. This union suit represents one of many individual Carter styles.

The organizations are the Northwest Division of the Superintendents association, the Northwest division of the Cost Accountants association and the National Technical association. All three organizations are divisions of the American Pulp and Paper association. The National Technical association will hold a national convention here. Technical men begin their registration here Thursday night but the other two organizations register Friday morning. Most of Friday morning will be devoted to registration and to visits to papermills and in the afternoon there will be a joint meeting of all three organizations at which there will be an address of welcome by Mayor Henry Reuter and responses by heads of the three associations. A banquet is to be held Saturday evening. On Saturday morning the visitors will inspect the Kimberly-Clark paper mill at Kimberly and at noon they will be guests of the Kimberly-Clark Co. at luncheon at the new community building at Kimberly. Group meetings are scheduled for the afternoon. Each organization will hold separate meetings after the joint meeting Friday afternoon. The cost accountants and the superintendents are to elect officers at the meeting here.

**30 INITIATED INTO
OCONTO LEGION POST**

The initiation team of the Oconto Johnston post of the American legion initiated a class of 30 into the Clyde B. Jones post at Oconto on Wednesday evening. A dinner at which covers were laid for 135 was served in the legion clubhouse before the initiation.

The team, which included C. C. Baker, H. E. Little, Thomas Morrissey, C. Wilford Cross, George Dame, L. Hugo Keller and H. J. Pettigrew made the trip to Oconto by train. Major A. J. Tucker and Alfred C. Besser accompanied to Oconto to be present at the service. Representatives from all the Oconto county posts were present. This was the first time that a legion initiation service has been put on in Oconto.

"HUMAN WRECKAGE"

IN smashing sequences of stupendous drama this gigantic motion picture plunges home a mighty story of human life. In a voice of silence it thunders forth a passionate outcry that makes the emotions tremble. In towering transcripts of tremendous thrills it burns its way into the consciousness, leaving a trail of piercing memories that will linger as long as you live.

"CARTER" WEEK---SATURDAY OCT. 27th TO SATURDAY NOV. 3rd

**More Than a Million Women
Have Chosen This Underwear**

Modern as your latest frock---
yet keeps you warm, snug,
and comfortable

If a million well-dressed women agreed that they had at last found some sensible, comfortable and fashionable winter underwear, wouldn't you be inclined to think it might be worth looking into? In fact, wouldn't you actually want to see it, and know why a million women had chosen it?

It is Carter's Underwear—as modern as your latest frock, yet warm, snug, and very comfortable. Every feature of the latest styles is provided for. Our expert designer studies the advance fashions in outer garments, and for each one she has created just the right foundation in undergarments.

Every Carter garment is expertly cut. Each new style is tried on a living model. Whatever position the model naturally takes, the garment is adjusted to fit with ease and smoothness, exactly as a dress is tried on and fitted. The result is a garment that is known for its superior fit.

Carter's KNIT Underwear
For All The Family

In the panel above at the right, Style 18½, round neck and knee-length union suit, so skillfully knit that it makes a perfect foundation for the thinnest frock. This union suit represents one of many individual Carter styles.

LABOR INDORSES BETTER PAY FOR FIRE, POLICEMEN

Trades Council Declares City Is
In Duty Bound To In-
crease Wages

Fully 400 persons attended the first smoker and get-together meeting of the season arranged by the Appleton Trades and Labor council in the council's hall Wednesday evening.

Organized labor of Appleton Wednesday evening went on record as favoring an increase in wages for the members of the Appleton fire department. The vote taken on the resolution was unanimous. Firemen have requested the city council for an increase of \$25 a month. It was pointed out by advocates of the measure that the entire wage increase proposed for the firemen and policemen will not amount to more than \$13,000 a year, an expense that the city is in duty bound to undertake instead of attempting to slash the small items for the sake of larger appropriations, such as the bridge and school building programs.

It was one of the largest crowds that were ever brought together at a regular meeting. A smoker followed the business meeting. Cards and other games were played and a large quantity of refreshments were consumed by the hearty eaters.

JEWELERS REELECT KAMPS TREASURER

Forty Fox River Valley Jewelers
Attend Conference
Here

H. A. Kamps of Appleton was re-elected treasurer of Fox River Valley Jewelers club at the meeting at Conway hotel Wednesday evening.

Other officers reelected were: President, J. R. Chapman, Oshkosh; first vice president, John P. Hess, Fond du Lac; second vice president, Walter H. Grunert, Green Bay; secretary, A. W. Anderson, Neenah.

Forty jewelers representing cities between Green Bay and Fond du Lac were present. The principal address was delivered by A. W. Anderson of Neenah, who discussed the excise tax. J. P. Hess, in a brief talk, touched also on the excise tax and on engraving.

Gustave Keller called attention to the benefits to be derived from attending meetings of the club and from cooperation. It was decided to hold the next meeting at Oshkosh in March.

ACCOUNTANT EXPLAINS HIS WORK TO STUDENTS

"The Field of Public Accountancy" was the subject on which E. A. Dettman, certified public accountant, addressed the office practice class of Appleton high school on Monday.

Mr. Dettman, who has a public accounting office in Appleton, explained to the students what preparation for such work they may receive in high school. He told of the work and the development of the field in both large and small cities.

IMMENSE ELECTRIC HEATER SHOWN HERE

What was declared to be the largest electric radiator in the world was demonstrated here Tuesday by representatives of the Simplex Electric Heating company of Boston, Mass. Hundreds of persons were attracted to the exhibition of the radiator, the properties of which were described in a lecture that was carried about on an auto or truck.

The heat was generated by means of a gasoline engine and generator on the truck. The radiator has a capacity of 10 kilowatts which is about the equivalent of a small city consumer.

The radiator is a large cylinder of the electric heating coil, and is made of the finest hard wood and painted with a special paint. It is about 10 feet high and 4 feet in diameter. When the truck was parked in the curb in front of a building, the heat could be felt even through the pane of the show window.

ON THE SCREEN

"SOULS FOR SALE" FILM ALMOST PROVED TRAGIC

Some thrilling—and almost tragic—incidents, which the movie-going public will never be privileged to witness, occurred during the filming of Rupert Hughes' stirring story of movie life, "Souls for Sale," which is now showing at the Majestic theatre.

No less than four accidents happened to mar the smooth course of producing the movie which is described as one of the screen's greatest thrill-producers.

First, Treasurer Boardman, who plays the part of Remember Seddon, was severely bitten by a vicious cat, while out on the desert making the scenes which open the picture. Part of her work was riding the camel, which turned out to be ill-trained. Production was so arranged as to get along without Miss Boardman for a week, while she healed her worn nerves and lacerated arm.

Two other principals were involved in mishaps. Carmelia Geraghty, a member of the motion picture "crew," was practicing some aerial work. Her foot slipped, and she fell nearly twenty feet to the stage below. Fortunately, she fell on a mat, and escaped with cut broken bones.

The next day, Mae Busch, who impersonated Robina Taelle, was struck by an automobile in front of her apartment in Hollywood. She had just read of the death of Wallace Reid, with whose wife Mae is very friendly, and it was her agitation at the news that interfered with her usual watchfulness, and caused the accident. She was severely bruised and shaken, and laid up for two weeks.

ACTORS FALL OVER CLIFF IN MAKING SCENE

A struggle between two men on the top of a cliff 150 feet above the level of the Pacific Ocean is one of the striking scenes in "The Secret of the Hills," which will be shown at The New Bijou Theatre Friday and Saturday.

Antonio Moreno, fearless, daring, and a clever athlete, selected the site for the strong and stirring scene in his production. The struggle takes place between the star and J. Gunn's Davis, who has the role of Richards. They are returning from a cave in which a treasure, buried by James III of Scotland, has been unearthed. Richards turns upon the hero and attempts to shoot him. With the agility of a panther, Moreno turns upon the man, knocks the revolver from his hand and a fierce struggle ensues. Davis and the star are both strong for realism and each is constantly on the alert to take the other unaware when working up a particularly tricky piece of business.

Davis whipped out his gun when Moreno was least expecting it and won praise of Director Chester Bennett. Before Davis could take aim, Moreno had knocked the revolver from his hand and was grappling with him at the edge of the cliff.

In less time than it takes to tell it, Moreno's hand encircled the villain's throat and Davis was on his knees. The player put up a strong fight and tried several times to gain his equilibrium, but each time Moreno was too quick for him. Both tumbled over the cliff and frightened the director, who thought both the star and a capable actor had been hurried to eternity. When the members of the cast ran up to the spot where the men disappeared they found them continuing their struggle on a shelf some fifteen feet below, unconcerned over their fall.

BOBBED HAIR NOT NEW: BARTHELMESS PROVES IT

There is nothing new under the sun, avers Richard Barthelmess who is currently being starred at The Elite Theatre in the John S. Robertson production, "The Fighting Blade," a First National picture.

A couple of years ago we were startled by the craze for bobbed hair, introduced by the flapper. At the time we gave these maidens credit for having evolved a new way of wearing their hair. However, there was nothing original in this coiffure at all, it was simply borrowed from a masculine fashion of the 17th century.

Mr. Barthelmess is right. His own hair was permitted to grow so that it might be bobbed for his current picture. For in it he is a Roundhead. And the Roundheads were the Parliamentary party in England in the Civil War of 1642-1649, so-called because their hair was bobbed for what is to

day termed bobbed, giving their heads a round appearance. Their opponents the Cavaliers, wore theirs in the conventional long style. The Roundheads were followers of Oliver Cromwell and succeeded in deposing Charles I after defeating the Cavaliers.

Barthelmess plays the part of Karl Van Kerstenbroock, Flemish soldier of fortune and the deadliest duelist in all Europe, who goes to England to avenge the death of his sister and remains to wreak his vengeance against all Royalists. Daring exploits, hair-braiding, secret amours and honorable love, thrills and suspense mark the course of "The Fighting Blade," most ambitious of all pictures in which Barthelmess has been starred.

Runs Into Wires

Being unfamiliar with the termination of Rankin's, Herbert E. Kampston of Fond du Lac, who was driving north on that street Tuesday evening ran his automobile into the guy wires near the Wisconsin Traction, Light, Heat and Power company supply yard.

SERIOUS LOSS OF FUEL BECAUSE OF POOR VENTILATION

Proper Humidity Should Be Maintained For Economy And For Health

This is the first of a series of articles, prepared by experts in government service, on ways and means of keeping down the annual fuel bill. The next article, which will consider the use of gas, will appear soon.

Most houses are kept too warm. So declares Samuel S. Wyer of the Smithsonian Institution in his paper on the correct use of fuel in the home.

About 15 per cent of the house fuel, he says, is used in raising the room temperature from 60 degrees to 70 degrees. Houses can be kept 5 to 10 degrees lower than is customary that is, kept at 62 to 65—without any discomfort or any danger to health.

"Keeping the house temperature lower is the easiest way to save fuel," Mr. Wyer asserts. "It is fuel saved by doing less work."

In most houses, especially when hot air furnaces are used, the room air is too dry for health and comfort. A room with proper humidity of air—not less than 30 per cent—will be more comfortable and healthful at a low temperature than one where the moisture content is too low. Therefore, with proper humidity, lower temperatures may be comfortably maintained and less fuel used.

COLD AIR LEAKS
Prevent leakage of cold air into your house and you save a big part of your coal bill and keep the house cleaner, declares Mr. Wyer. In many of the recent houses, he points out, especially those built to sell, the construction is so defective that a reasonably tight room cannot be had. Fuel savings of 15 to 25 per cent are easily possible by making the house tight.

These are ways of making your home more airtight. In cold climates, the side of prevailing winds, storm sashes are effective.

Caiking oakum or other caiking material around window and door frames and weather stripping for doors and windows, whether of wood, felt, rubber or metal, will reduce unnecessary cold air leakage.

Cellars are always desirable, since floors where the wind can get underneath are not only uncomfortable but serious heat wasters.

HEALTH MENACE
Improper heating and ventilation not only causes discomfort and unnecessary expense but is a serious menace to health, Mr. Wyer adds. "About one-third of all the deaths in this country," he says, "are due to respiratory diseases. Pneumonia is one-third more frequent in urban than in rural districts. The seasonal cycle of pneumonia where house heating is necessary is startling. Of the total annual deaths, about 40 per cent occur during the winter months, 24 per cent during the fall and spring and 10 per cent during the summer. In other words, the highest death rate occurs during the heating season. This is due to lowering of vitality on account of improper heat-

I. Kiss, I. Bahall of Appleton and A. Goldin of Kaukauna have collected approximately \$700 in Appleton, Kaukauna and Neenah for the Palestine Foundation fund and expect to increase this amount before submitting their final report. ing and ventilation. The toxic action from combustion products—especially carbon monoxide—from fuelless gas-heating stoves is also important.

COVER PIPES
Water tanks, furnaces and pipes for hot air, water or steam should be adequately insulated. Merely covering with one thickness of asbestos sheets is not enough—in fact, this is worthless. The covering must be half an inch thick to be effective and will make a marked saving in fuel, and will heat the living room instead of the basement.

Most hot-air furnaces have a sluggish hot-air draft. Placing an electric motor fan in the cold-air intake, according to Mr. Wyer, will:

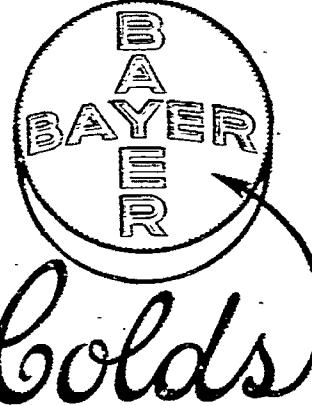

Increase the volume of air going through the furnace and deliver more heat but at a lower register temperature. It will deliver a warm instead of a hot air, thus producing better condition in the room.

Absorb more heat from the fuel, thus decreasing the fuel consumption. Make the draft positive and independent of weather conditions.

"Friendly Arctic" Is Topic Of Stefansson Address Here Nov. 8

Readers Of Great Explorer's Books Are Convinced Appleton Has Rare Privilege In Hearing Tales From His Own Lips

"The Friendly Arctic" is the topic on which the world famous explorer, Vilhjalmur Stefansson, will speak at Lawrence Memorial chapel Nov. 8 under auspices of the chamber of commerce. Mr. Stefansson has written a book with the same title and those who have read it at Appleton

free public library declare that if his lecture is one half as effective as his thrilling story of the conquest of the north, it will be worth going miles to hear.

All who have read this or other books written by this noted man are expressing their intention of hearing him. Instructors and pupils of educational institutions all through northern and central Wisconsin are attracted by his presence here and are sending letters of inquiry concerning the date and price of tickets. The fact that Mr. Stefansson is prominent as a scientist and author as well as an

My Secrets
Of beauty are yours now, if you wish
By Edna Wallace Hopper

I made myself a famous beauty, and that beauty brought me glory. I have kept that beauty to a grand old age. After 40 years in the limelight, I still look a girl of 19.

These facts are due to helps I found through years of world-wide searching. They are, I believe, the best beauty helps in existence. No one I know has, in other ways, attained any like results.

So I have had these helps prepared and placed where all may get them. And I hope to see them bring to millions the benefits I got.

Just Four Will Do
These beauty helps comprise 32 different factors. But great experts have combined them in four preparations. And all are sold at modest prices which every girl and woman can afford.

One is my White Youth Clay. A clean, refined clay, vastly more efficient than ordinary clays. A clay perfected by French experts through 20 years of scientific study.

My White Youth Clay brings a new complexion, rosy, clear and clean. It combats all lines and wrinkles. No woman who once tries it will ever go without it. It costs 50 cents and \$1.

Youthful Bloom
My Youth Cream is a cold cream like nothing else you know. It contains both lemon and strawberry. French experts have embodied in it the best skin helps they know.

Apply it after the clay. Also use it as a night cream, also daytimes as a powder base. Keep it ever on the skin to feed and whiten, firm, soften and protect. The price is 50 cents.

My Facial Youth is a liquid cleanser, now used by leading beauty experts the world over. It contains no animal, no vegetable fat. The skin cannot absorb it. So it cleans to the depths, then departs. And the dirt and refuse nothing else can reach comes with it. Great beauty experts charge \$3. for it. Mine sells for 75 cents.

The Hair You Envy
My glorious hair is due to my Hair Youth. It is heavy, silky, lustrous and grows finer every year. Falling hair, dandruff and gray hairs are unknown to me.

My Hair Youth is applied with an eye dropper, directly to the scalp. It does not muss the hair. It keeps the scalp like a well-kept garden where hair roots can flourish. It costs 50 cents and \$1 with eye dropper.

All druggists and toilet counters supply these preparations, exactly as I use them. My Beauty book comes with each. They will bring you rich rewards. If you want more beauty, longer youth, these are the best ways science knows to get them. Edna Wallace Hopper. Business address, Waukesha, Wis.

"This man is the highest priced lecturer of his type on the American platform today," said Mr. Corbett, "and we undertook to bring him here because no private organization felt it could stand the expense. We believe in bringing great men to Appleton wherever we can and so we asked him to come. Other cities that are booking Mr. Stefansson are asking \$1.50 and \$2 admission, but we are charging only 75 cents because there is no desire to make a profit. Mr. and Mrs. Dean left Appleton on Oct. 5, going directly to the Lincoln highway and then through Illinois, Iowa, Nebraska, Missouri and Kansas. They found the roads in good condition going down, but heavy rains made more than 400 miles of the return trip through Missouri and Iowa very bad.

BLUE AND WHITE BATTLES CORNELL HERE FRIDAY

Lawrence Will Fight To Wipe Out Defeats In Last Two Contests

Opponents Of Local School Team Are Closest Contenders In Race With Beloit Gridders

Determined to wipe out the disgrace of their last two defeats on the grid, the Blue and White players are going into Friday's battle with Cornell at the Lawrence field in better shape than at any previous time this year. Coach "Cub" Buck has profited by the experience gained in the LaCrosse and Beloit contests, and has been working his first success in the last several hours of the afternoon of this week. Tackling was stressed in daily workouts and the Lawrence men have acquired a proficiency in this which promises Cornell a difficult job. Sem. mages with Bill Smith's Freshmen were a daily occurrence also. Those sham battles proved that the regulars are in good trim and determined to work their way out of their present slump. The Freshmen line is fast and peppery, looking every minute, but was unable long to withstand the smashing attack of the Blue men.

CORNELL IS DANGEROUS

Cornell is reputed to be the darkest cloud on Beloit's horizon. Practically the same men who were on the squad last year are on the present lineup and their record shows them to be a formidable outfit. Beloit is accounted one of the best teams in the middle west, and the fact that they have been undefeated since the beginning of the season is sufficient indication of the strength of the Blue and White's opponents of next Friday.

Berry, Holmes, and Coates have given up the game, and will no more be seen on the grid. Stoll and La Rue are still crippled and will be unable to play Friday, and Curry is also out of the game. Gander probably will play center in LaRue's place. Olsson and Packard will be guards. Kiessling and Blackburn tackles. Christoff and Cooke ends. Zussman and Boutecher halves. Kotai quarter, and Grignon fullback.

The kickoff will be made promptly at 2:30 P. M. Friday.

MARQUETTE GRID SQUAD ENROUTE TO CLEAN UP BOSTON

Hilltoppers Will Arrive At Destination Late Thursday Night

Milwaukee—Speeding across Michigan, Ontario, New York and Massachusetts, the Marquette university football team is Thursday on its way to Boston, where on Saturday the "Singing Hilltoppers" will meet Boston college in what promises to be one of the fiercest fought intercollegiate battles of the year.

Coach Frank Murray's team left Milwaukee Wednesday afternoon and will arrive in Boston late Thursday night, being scheduled to stay at a country club near the city until the day of the game. There will be a general workout on Friday with all of the thirty players who are making the trip participating.

Marquette is undefeated for two seasons, not having lost a game since the close Norm Bates battle early in November, 1921, and faces a tough proposition in Boston college. Boston has a heavier team and, from all reports, the odds will favor Major O'Connell's easterners. However, Coach Murray is confident and hopes are high that the Hilltoppers will bring the pigskin back to Milwaukee.

Captained by Red Dunn, one of the greatest triple threat quarterbacks in the west today, the Marquette team is powerful and fast. It includes eight lettermen from last year's undefeated squad, besides a neat assortment of new men and improved 1922 substitutes. The starting lineup will include: Dillig and Fahay, ends; Lutz and Lane, tackles; Benjamin and Cartwright, guards; Kennedy, center; Captain Dunn, quarter; Skemp and Leichfuss, halves; and Duford, full, all 1922 lettermen except Lane and Cartwright.

Marquette also has an intersectional game this season with the University of Vermont in Milwaukee on Thanksgiving day. The University of Detroit will be met in Detroit on Nov. 2.

LAWRENCE NETMEN MEET NEENAH STARS

Neenah's Fox River valley tennis champions Thursday afternoon were to play the five best netmen of Lawrence a match game at the T. M. C. A. courts here. The Neenah city team defeated Oshkosh, Green Bay, Appleton and several other cities of the valley last summer, and thereby won the valley cup. Monday's match, probably the best of the Neenah players, will be matched with Nesbit, the Lawrence champion. Halteman of Lawrence will oppose Whitpin. Lea will engage Chappelle of Neenah. Hunting and Hollis will play Sizer and Brown respectively, both Neenah players.

The Neenah players are conceded to be the favorites in the match.

SPORT VIEWS AND NEWS

Bucknell isn't apt to get another game with Yale. Old Eli's athletic authorities are very much up in the air about last Saturday's game. The Bulldogs were pretty well banged up even if they did win the game and Yale is claiming that Bucknell pulled a few tricks outside of the book. Before the fracas was over the Bucknell captain was routed for illegal roughness.

Welsh, Colgate's giant guard, mentioned as an All American possibility, got a black eye when he was given the gate in the Cornell game. Things were breaking bad for the Colgate and the husky guard went on a rampage. He was warned several times by the officials but continued his rough stuff and out he went. Sometimes brute strength is a handicap after all.

A family row is on tap Saturday when Michigan and the Michigan Aggies chase the pigskin at Ann Arbor. Harry Kipke is the Wolverine captain while his brother is playing end for the Farmers. Both the Kipke boys are superstars and there should be a lot of fun spring when they start warring it up against each other.

Marquette's gridiron squad hopped off Wednesday night for Boston where on Saturday they will meet Boston college in an intercollegiate gridiron engagement. It will be a tough test for the Milwaukee Hilltoppers but Coach Murray's team has been "nursing" a'fore carefully and they are sure to give the New Englanders all they are making for.

BALTIMORE EVENS SERIES WITH KAWS BY WINNING, 9 TO 5

Orioles Get 12 Hits Off Three Kansas City Hurlers Before 373 Crowd

Baltimore—Slugging their way to victory over the Kansas City Blues of the American association here Wednesday afternoon, 9 to 5, the Baltimore Internationals climbed to even terms in the Junior world series. Each club now has four victories and the ninth and deciding game for the minor league championship will be staged on Thursday.

The Orioles had on their batting clothes and hit three Kansas City pitchers—Wilkinson, Thormahlen and Baldona—at opportune times.

Wilkinson, who started for the Blues, was wild and got himself in trouble with bases on balls. Jackson, Oriole right hander, pitched the entire game for Baltimore and, except for homers by Wright and Brief, which accounted for three runs, was very effective.

The Blues were the first to score, getting two runs in the second inning on one hit. Baltimore tied the score in its half of the second and added two in the third and one in the fourth.

In the sixth the Blues threatened for a minute when they pulled up to within one run of Baltimore by registering twice on a double by Becker and a homer over the left field fence by Brief. The Birds came right back in the seventh and Cobb, Baltimore catcher, broke up the game with a homer over the left field fence with Maisei and Shedy on the bases.

Wright and Porter, rival shortstops, furnished the fielding features.

The game was played under weather conditions so damp and disagreeable that the handful of spectators were bundled up in overcoats and wraps and Empire Chili, of the American association, officiated in overcoat and gloves. The turnstiles registered only 373 admissions and the receipts amounted to \$547.

Appleton High Grid Squad Seeks Revenge From Marinette Team

Both Teams Go Into Saturday Game Undefeated; Fight For Chance At Championship

Coach David Wilson's Appleton high school eleven will go into its next game against Marinette with a clean slate, having defeated Manitowoc, 40 to 0, Fond du Lac, 10 to 0, and tied West Green Bay 6 to 6. The Orange and Blue will fight hard this year to wipe out last year's 20 to 0 defeat at the hands of the Marinette team here, and in spite of the fact that they are all new to the game they expect to humble their veteran rivals Saturday.

Marinette, always dangerous on the grid, has the strongest team in years this season. Last Saturday Coach Tom Johnson's men defeated East Green Bay, 23 to 0, at Marinette, thereby clinching a place in the championship race. The Green Bay team outweighted the Purple about eight pounds to the man but were outclassed from the start both in offense and defense. Captain Lund and Fullback Joe Kresky are the most dangerous men on the Marinette squad. Lund Saturday scored two touchdowns by long end runs, and Kresky displayed a phenomenal ability in blocking, passes and punts, breaking through the Green Bay defense almost at will. Mikel at left half, and Kuchenberg at quarter also need watching. Kuchenberg's generalship was largely responsible for Marinette's success this season, and his generalship has led his team to repeated victories.

NO SERIOUS INJURIES

Coach Wilson has been fortunate in not losing his men through crippling mishaps this year, in spite of the grueling drilling which has made them what they are. Every man who turned out at the beginning of the season, with one exception, is still appearing for the daily workouts, and the teams' unsullied record has resulted in establishing the confidence

MIDWEST ELEVENS WORK HARD TO GET SET FOR SATURDAY

Wisconsin And Minnesota Are Only Teams To Meet With-in Conference

Chicago—Football dopesters anxious for evidence on which to base predictions on the Big Ten football championship are watching with interest the practice sessions being held at Michigan, Illinois, Chicago, Minnesota and Wisconsin, the only unbeaten elevens in the western conference. Wisconsin and Minnesota are the only teams of the five to meet Saturday but the remainder are scheduled with opponents calculated to test their mettle, and hard practice has been the order of the week.

With the game with Iowa a week from Saturday in view, Coach Yost of Michigan, is giving his regulars individual workouts and perfecting their performances for the Michigan Aggies Saturday.

Minnesota, preparing for its conference debut against Wisconsin Saturday, is not giving satisfaction to the coaching staff in the daily workouts and hopes of followers of the team for a victory over the Badgers are reported to be at low ebb. Meanwhile at Wisconsin the regulars have been several times trounced by the Frosh; using Gopher plays, and this is the cause for worry on the part of coaches and team adherents.

Efforts to strengthen the Illinois line, weakened by vacancies, occupies the attention of Coach Zupke.

The Northwestern Purple is expected to rely considerably for points and yardage on Captain Billy McElwain.

Every regular unless crippled, is being required to take part in scrimmages at Purdue which is preparing to put up the fight of its career against Chicago.

Indiana with an open date this week end is devoting its time scrim-

FOOTBALL GATES TIDE OVER OTHER COLLEGE SPORTS

Receipts Of Grid Games Used To Build Stadium, Gymnasium And Fields

Chicago—Football not alone is increasing its own popularity as a popular sport, but at the same time is proving a boon to other college sports. This is borne out by western conference universities where the receipts from football contests are finding their way into new stadiums, athletic fields and gymnasiums.

The University of Wisconsin on Saturday opens the newly completed tier of its new stadium, built entirely from football gate receipts. This structure, costing approximately \$150,000 will seat 36,000 at the homecoming game.

The University of Michigan is building a \$300,000 gymnasium, soon to be completed, from earnings of its football contests, while other schools are applying their surplus to athletic fields and stadiums.

Football for years has served to tide over other intercollegiate sports, which of necessity are unable to pay their way.

Appleton high school gridgers are all set for their battle with Marinette Saturday. Both the teams are undefeated this season. The Purple team has the advantage of Appleton both in weight and experience. Coach David Wilson's string is determined to even up for last year's 20-0 defeat, and the contest at Marinette is expected to be one of the hardest of the high school conference.

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success. An examining physician for one of the prominent life insurance companies, in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. Dr. Kilmer's Swamp-Root is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation, send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.
